## Insights of the Month

The [World Bank's B-READY 2025](#) report highlights a growing gap between strong regulations on paper and real business experience. In 2024, Macedonia had no efficiency gap. In 2025, regulatory progress is now outpacing operational performance.

**What does this mean?**

Passing better laws is not enough. Macedonia must strengthen institutions and improve the actual delivery of services to businesses.

🌐 What if diaspora ideas could truly shape Macedonia's future?

Based on the Global Diaspora Survey 2025, Macedonia2025 translated thousands of voices into concrete, actionable proposals to strengthen engagement and trust.

We are working closely with the Government and institutions to advance key recommendations and turn ideas into action.
